**Notes**

(a) Provisional

(b) VAT was introduced with effect from 01 August 2002 and is in operation since then. It replaced the Goods and Services Tax (GST), an almost similar tax on the consumption of goods and services, with that, the data represents the revenue from central government Business Turnover Tax (BTT).

(c) NSL was abolished since April 2002 with the introduction of VAT.

(d) Under the revenue sharing mechanism introduced in 2011 with the Provincial Councils (PCs), 100 percent of the revenue from stamp duties is transferred to PCs. The BTT collected by Provincial Councils extended to buying and selling activities.

(e) Debits tax was abolished with effect from April 2011.

(f) Data from 2011 represents only two thirds of the total revenue from NBT as the balance one third is transferred to PCs under the revenue sharing mechanism with them.

(g) Data from 2011 represents the revenue from Telecommunications Levy, which was introduced as a composite tax to the telecommunications sector by removing VAT, NBT, Regional Infrastructure Levy and the Mobile Subscribers' Levy on this sector in 2011.

\*Provincial Council Tax not included
